

Entropik

- 2-3 years of experience in AI/ML engineering, with hands-on experience in Generative AI and LLM applications.
- Strong programming skills in Python and SQL.
- Deep understanding of Machine Learning, Deep Learning, NLP and LLM architectures.
- Experience with RAG, prompt engineering, embeddings, vector databases, and AI agents.
- Proficiency in frameworks such as PyTorch, LangChain, LangGraph, and LlamaIndex.
- Experience with APIs, microservices, Docker, Kubernetes, and cloud platforms (AWS, Azure, or GCP).
